1. AUDIT METHODOLOGY & STATUS TAXONOMY

To provide leadership and independent technical evaluators with unvarnished accuracy, every feature in this register is categorized into one of eight standardized, non-promotional status tiers: **LIVE VERIFIED** (Operating on live/staging with UAT sign-off); **PRODUCTION DEPLOYED — UAT PENDING** (Live on server, awaiting supervisor testing); **SOURCE IMPLEMENTED — TESTED** (Code written and passed automated test suites); **SOURCE IMPLEMENTED — BUILD VERIFIED** (Code written and compiles); **PARTIALLY IMPLEMENTED** (Under development); **STUBBED / NOT LIVE** (Simulated; awaits live API keys/contracts); **PLANNED / NOT IMPLEMENTED** (Future roadmap); **DECISION PENDING** (Awaiting Board governance).
